# SMART PBX

# KX-NS300

Max. Trunks: 142
Max. Extensions: 192 with DXDP

The KX-NS300 is a smart hybrid PBX for small and medium sized companies that provides solutions to resolve communication problems.KX-NS300 is a unified communication system which has rich IP features. It can also use built-in applications such as a call centre solution, mobile solution, and voice mail system to provide more efficient work and increased customer satisfaction.
## Smart Hybrid System

The KX-NS300 enables flexible system configurations that freely combine both IP and legacy systems to cost-effectively respond to your needs. It supports 6 analogue trunks and 18 extensions by itself, and up to 192 extensions with the Expansion Unit KX-NS320.
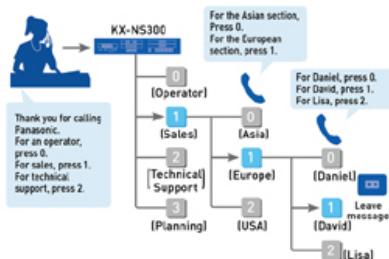

## Using Existing Resources

Existing Analogue Proprietary Telephones (APTs), Digital Proprietary Telephones (DPTs) and Single Line Telephone (SLTs) from Panasonic and Trunk can continue to be used, enabling a system to be replaced at a low cost without wasting resources.

## Built-in Auto Attendant / Voice Message System

As a standard feature, the KX-NS300 can connect customers to the appropriate section or operator according to their query in call routing with voice guidance. It can also prompt the customers to leave a voice message when the operator is away.

## Digital Proprietary Telephone
